And that ebook is extremely had to browse detail by detail, it might be perfect for both your own life and you. He smiled and shrugged. "I used to be a fisher of men. Now I hunt them. One in particular." "After Elfarran and Morred perished and the Isle of Solea sank beneath the sea, the Council of the Wise governed for the child Serriadh until he took the throne. His reign was bright but brief. The kings who followed him in Enlad were seven, and their realm increased in peace and wealth. Then the dragons came to raid among the western lands, and wizards went out in vain against them.

King Akambar moved the court from Berila in Enlad to the City of Havnor, whence he sent out his fleet against invaders from the Kargad Lands and drove them back into the East. But still they sent raiding ships even as far as the Inmost Sea. Of the fourteen Kings of Havnor the last was Maharion, who made peace both with the dragons and the Kargs, but at great cost. And after the Ring of the Runes was broken, and Erreth-Akbe died with the great dragon, and Maharion the Brave was killed by treachery, it seemed that no good thing happened in the Archipelago. In the gallery windows, eight of the nine sculptures were so disturbing that many passersby, catching sight of them, blanched and looked away and hurried on. Not everyone can be a connoisseur. After a few racing steps, when the dog realized that Mary hadn't thrown the ball, it whipped around and sprinted back. No more than a minute after Vanadium departed, a nurse arrived in a rush, no doubt sent by the hateful cop. Hard to tell, through all the tears, if she was a looker. A nice face, perhaps. But such a stick-thin body. Everywhere in the fabled city, calves and knees and magnificent expanses of taut thighs were on display. This brought out the dreamy romantic in Junior, and more than ever he yearned desperately for the perfect woman, the ideal lover, the matching half of his incomplete heart. At last he said, "And there he is, hands in front of his face, quarters bouncing off him, these kids and this old lady scrambling around him to snare some change." The galerieur's icy demeanor thawed marginally at this proof of taste and financial resources. He either smiled or grimaced at a vague but unpleasant smell-hard to tell which-and identified himself as the owner, Maxim Coquin. "Go home. Sleep," he said. "You'll be no help to your sister if you wind up a patient here yourself." On both sides of the property, the neighbors can't see, but some know, have always known, and have less interest. Shortly after Agnes turned out the light, she said, "Kid, it's been one whole week since you walked where the rain wasn't, and I've been doing a lot of thinking about that." He looked at the two cards following the four of clubs in the stack. Neither of these was a jack of spades, either, and both were what he anticipated. Though she was only a week past her third birthday, Angel always selected her own clothes and carefully dressed herself. Usually she preferred monochromatic outfits, sometimes with a single accent color expressed only in a belt or a hat, or a scarf. When she mixed several colors, the initial impression that she gave was of chromatic chaos-but on second look, you began to see that these unlikely combinations were more harmonious than they had first seemed. "Crafty men need to stick together," he said. "Men who have no art at all, nothing but wealth-they pit us one against the other, for their gain not ours. We sell em our power. Why do we? If we went our own way together, we'd do better, maybe." Friday morning, Junior resigned his position as a physical therapist at the rehabilitation hospital. He expected to be able to live well off interest and dividends for the rest of his life, because his tastes were modest. In the living room, the central and largest window framed a magnificent view, and swagged silk brocatelle draperies framed the window. An oversize hand-painted and heavily gilded chaise lounge, upholstered in an exquisite tapestry, stood against this backdrop of city and silk, and Renee pulled Junior down upon the chaise, desperate to be ravished there. "Oh, yes. When he phoned, Reverend Collins told me all about you and Bartholomew. At the front door, when I asked the boy's name, I already knew it and was just setting up this little trick for you." They wanted to go up to Barty's room, but she refused them, because there was nothing more they could do for the boy than they had done for her. "He wants to finish reading Starman Jones, and I'm not letting anything interfere with that. We're leaving for Newport Beach at seven in the morning, and you can see him then." Junior tossed garments on the floor and across the bed to create the impression that the detective had packed with haste. After being imprudent enough to blast Victoria Bressler five times with his service revolver-perhaps in a jealous rage, or perhaps because he had gone nuts-Vanadium would have been frantic to flee justice. He swept the immediate area with the flashlight, and shadows spun with shadows, waltzing spirits in the ballroom of the night. "It's what?" asked the detective, for with the exception of his teeth, he was not a self-improved individual. Returning to his apartment, Edom had to pass under the limbs of the majestically crowned oak that dominated the deep yard between the house and the garage. First, he searched immediately around the dead man, figuring that the watch might still be snared on the coat belt or on one of the sleeve straps. No luck. "Oh, it certainly is! It certainly is enough! But ... I don't regret much, you know. But I do regret not being here to see why you and Angel have been brought together. I know it'll be something lovely, Barty. Something so fine." Walking was part of a fitness regimen that he took seriously. He would never be called upon to save the world, like the pulp heroes in the tales he enjoyed; however, he had solemn responsibilities he was determined to meet, and to do so, he must maintain good health. To the phone, the police. No dial tone. Pointless to rattle the disconnect switch. The line had been cut. THE RAIN THAT HAD threatened to wash out the morning funeral finally rinsed the afternoon, but by nightfall the Oregon sky was clean and dry. From horizon to horizon spread an infinity of icy stars, and at the center of them hung a bright sickle moon as silver as steel. Because his lacrimal glands and tear ducts were intact, Barty could cry with his plastic eyes. Consequently, it didn't seem all that much more incredible to be seeing with them. Besides, Junior was reluctant to kill Vanadium, for real this time, and risk discovering- that the detective's filthy-scabby-monkey spirit would in fact prove to be a relentless haunting presence that gave him no peace. Tom said, "Now I'm going to add a human touch and a spiritual spin to all this. When each of us comes to a point where he has to make a significant moral decision affecting the development of his character and the lives of others, and each time he makes the less wise choice, that's where I myself believe a new world splits off. When I make an immoral or just a foolish choice, another world is created in which I did the right thing, and in that world, I am redeemed for a while, given a chance to become a better version of the Tom Vanadium who lives on in the other world of the wrong choice. There are so many worlds with imperfect Tom Vanadiums, but always someplace ... someplace I'm moving steadily toward a state of grace." Standing over the body, he squeezed off the last three shots. Finished, he detested guns more than ever. Caught unaware by the joke, she laughed. "Well, I'm glad to know I'm good for something. Is there maybe a special pie you'd like me to make today?" Already, he was up two hours past his bedtime. In recent months, he'd exhibited the more erratic sleeping habits of older children. Some nights, he seemed to possess the circadian rhythms of owls and bats; after being sluggish all day, he suddenly became alert and energetic at dusk wanting to read long past midnight. Hope was the handmaid to Agnes's faith. She always held fast to the belief that the future would be bright, but right now she was hesitant to test that optimism even with a harmless card reading. Yet, as with the fifth place setting, she was reluctant to object. The slow-motion death ballet, in which Bonnie and Clyde were riddled with bullets, was the worst moment Junior had ever heard in a film. He didn't see more than a brief glimpse of it, because he sat with his eyes squeezed shut. Nine days previously, at Google's instructions, Junior had rented boxes at two mail-receiving services, using the name John Pinchbeck at one, Richard Gammoner at the other, and then he had supplied those addresses to the papermaker. These were the two identities for which Google ultimately provided elaborate and convincing documentation. "Miss White," he continued, still facing the window, "not long before you arrived in surgery this morning, your sister died on the

table. We hadn't delivered the baby yet, and perhaps couldn't have done so, by cesarean, in time to prevent brain damage, so for both the sake of the mother and child, heroic efforts were made to bring Phimie back and ensure continued circulation to the fetus until we could extract it." "No. The information I gave you came from the coroner's office, which issued the death certificate. But even if I got into St. Mary's records, there wouldn't be a hint of where Catholic Family Services placed this baby." Dressed entirely in a shade of pink that darkened to rouge when wet, Angel squealed and deserted Barty. Spotted-streaked-splashed, with false tears on her cheeks, with a darkly glimmering crown of rain jewels in her hair, she raced up the steps as though she were a princess abandoned by her coachman, and allowed herself to be scooped into her grandmother's arms. "Do you know him?" Edom asked, gazing longingly now at the open door, from which Jacob had turned away. "Obadiah Sepharad?" "Just as the smile curved to completion, however, an awful thing happened. The humiliation began with a loud gurgle in his gut. In a neatly groomed neighborhood of unassuming houses, Vanadium's place was as unremarkable as those around it: a single-story rectangular box of no discernible architectural style. White aluminum siding with green shutters. An attached two-car garage. "Because He didn't want you to be a dog." She finished tying a bow in the drawstrings. "There. You look just like an M&M." Snapping the cylinder into place, he rose to his feet. Already he had a new plan, and the cop's revolver was the most important tool that he required to implement it. She got a can of soda, returned to the table, and sat down as if finished with her explorations. "You're okay, Barty." Only two explanations occurred to him. First, bureaucracies slavishly follow the rules even when the rules make no sense. Second, the Ugliest Private Detective in the World, Nolly Wulfstan, was an incompetent dunce. AFTER SPENDING Wednesday as a tourist, Junior began to look for a suitable apartment on Thursday. In spite of his new wealth, he did not intend to pay hotel-room rates for an extended period. "So I drew attention to myself. Raised suspicions. One night, in St. Louis, this rube recognized me from my performing days, even though I'd changed my looks. It was a high-stakes game, but the players weren't high-class. They ganged up on me, beat me, and then smashed my hands, one finger at a time, with a tire iron."
