The last heirs of the House of Hupun were a boy and girl, Ensar and Anthil. Wishing to end the line of the Kargish kings but unwilling to risk sacrilege by shedding royal blood, the Godking ordered these children to be stranded on a desert island. Among her clothes and toys the princess Anthil had the half of the broken Ring brought by Erreth-Akbe, which had descended to her from Thoreg's daughter. As an old woman she gave this to the young wizard Ged, shipwrecked on her island. Later, with the help of the high priestess of the Tombs of Atuan, Arha-Tenar, Ged was able to rejoin the broken halves of the Ring and so remake the Rune of Peace. He and Tenar brought the healed Ring to Havnor, to await the heir of Morred and Serridh, King Lebannen.. "He won't be angry? They say wizards have short tempers. Full of pride.. It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be.. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them?. They walked a half-mile or so. The Knoll rose up full in the western sun on their right. Behind them the School sprawled grey and many-roofed on its lower hill. The grove of trees towered before them now. She saw oak and willow, chestnut and ash, and tall evergreens. From the dense, sun-shot darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle and sheep went down to drink or to cross over. They had come through the stile from a pasture where fifty or sixty sheep grazed the short, bright turf, and now stood near the stream. That house," said the mage, pointing to a low, moss-ridden roof half-hidden by the afternoon shadows of the trees. "Stay tonight. You will?". Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay.. "Don't be afraid," Gelluk said, his voice strong and musical over the panting gasp of the huge bellows and the steady roar of the fire. "Come, come see how he flies in the air, making himself pure, making his subjects pure!" He drew Otter to the edge of the roasting pit. His eyes shone in the flare and dazzle of the flames. "Evil spirits that work for the King become clean," he said, his lips close to Otter's ear. "As they slaver, the dross and stains flow out of them.
